Hi Mr. Ward,

I'm writing to you in a state of exhaustion and distress. In 2019—I was coerced into doing that by the FBI and high-ranking officials. I even wrote an email in late December 2019 to Ethan Foteh asking him to no longer help with this case and doing so has negatively impacted my life.

When the FBI approached me in early 2019, I was highly stressed, in a fragile mental state, had depression, and was traumatized—and the FBI used that against me. I agreed to one meeting. I also said that I refused to agree to anything else aside from that one meeting. I was told that it would be traumatic for me, but was told that I had to do it.

Now five years later—I still have horrific PTSD from that experience. I was scheduled to appear as a person on 10/17/24 to testify in the trial and have been rescheduled for next week. My PTSD is so bad that I emailed the FBI during trauma responses saying I can't help them and I was even called the Victim-Witness-Assistance phone number. I was told of my PTSD and the situation, and that I was calling the FBI. My name and once I gave it to her, the tone in her voice changed. The FBI Agent will be contacting me and everything I'm testifying about.

And if I hadn't been put through enough from this—FBI incidents of this:

The woman that served me the subpoena has been for of the parking garage where I live around midnight watching and clearly waiting for me to get there. where my neighbors and I go to socialize and enjoy she were trying to look for me, why the roof- and What's interesting is that it was a spur of the moment listening to our conversation.

How did they know I would be And it's obvious that the incident on 10/28 was i watched. It's obvious they were sending me to som

Could you please let me know why agents are stalking can't testify because of my PTSD.

My mental and corresponding physical health has been myself. And now there's an added layer of concern, as stalking.

I cannot keep sacrificing my health and well-being for attempted to make a concession for me, even after I've you'd like) and also shared this issue in 2019, inclu should not have come as a surprise since I already in I'm tired of speaking up and being gaslit. This happ for me to be used as collateral damage for this case manipulated-coerced-gaslit-stalked, forced, etc, etc.

I understand you're fighting for justice, but where's their health in the process. My PTSD is too severe for hours helping the FBI in 2019, and at the expense of over again by this. I don't believe that I am capable I'm coming from and to respect that I cannot put myse Mr. Ward. please let me know how I can further expand like to have a Zoom me withing IwictohuIndy dtohefroarpitshti sand I foot in San Francisco again I'm so traumatized by all even better example of my trauma level. Hi Ms. Boersch,

I'm on the witness list for the Marcus Andrade case situation and have been on a decline with my health. I let me that the case was moving forward, which has been since 2024. I'm writing to you in a severe state of distress regarding the stipulation that I would not be participating in a Grand Jury testimony in late 2019, which caused me to be or mentally capable of testifying and doing so was not possible in this situation already has. After I was subpoenaed, I was stalked by them.

I've been working with Mr. Mark Goldrosen who has been working with Mr. Ward about accommodating this situation, I have been being told I must go to San Francisco to testify, but I don't know how I'll be able to get on a plane to testify. Mr. Goldrosen has sent that I've sent to Mr. Ward detailing this situation and the traumatic effects this has caused me. I've been diagnosed and have had ongoing severe panic attacks, which have been frequent.

I've been diagnosed with chronic PTSD and severe anxiety, which I've tried conveying, also getting a note that I was affected by, and will continue to if I were to testify.

Ms. Boersch, I kindly ask for your help. I ask you to put it all together. If I can't, I ask for remote testimony. Your accompanying legal team are first rate and I am in no time believing that simply removing one person does not break this case.

Thank you in advance for your time and consideration.

Hi Mr. Ward,

I know you said that I wasn't stalked by the FBI in any specific incidents. I would like to share proof of this. Please note, the video has been lightened in color. The video from 10/28/24 is the same woman that subpoenaed me. I was taking pictures of me. This stalking incident occurred where this woman trespassed private property to my home at midnight. As I mentioned before, there's no way I was going to the roof of the parking garage was a safety issue at the time. This, along with other stalking incidents, has put me in such distress due to being stalked and in a dangerous situation.

I plan to file a complaint against the FBI for their lack of enforcement to capture footage of other stalking incidents between 10/17/24-10/28/24.

I made it very clear to the FBI that I couldn't testify if I was stalked. I perceive this stalking and harassment as extremely threatening. I've been entirely uncomfortable since I don't fall in line with what the FBI would like. I am not traveling to San Francisco for this case. I have no intention of doing so when I said I couldn't testify. I'm also highly concerned

possible retaliation, stalking, intimidation, or highly concerned and do not feel safe. I especially and the answers not being what the FBI would like

I also would like to note, in May 2024 I was contacted by Katie from the San Francisco office, and she called me and preceeded to tell her utahitoni amadvitPTSD rformonethis what I said. In fact, she laughed at mostly things

I'm concluding that the stalking instructions are another reason I do not feel comfortable going to

I also want to note, I find it really horrifying that someone who has PTSD is harmful in many ways, which specific items mentioned above, it's reasonable to say me.

I'm sure you could understand that I'm not feeling that you offer compassion and consideration by even allowing me to testify remotely using a pseudonym because of the nature of the situation including this being whi

I didn't agree. I was forced to testify in front of the Grand Jury. I was told that I could be arrested if I didn't comply.

Now five years later—I still have horrific PTSD. I was subpoenaed in person on 10/17/24 to testify in court. I showed up since then, and two more scheduled for next week. I showed up next three days after being subpoenaed and during the trial. I explained in detail my PTSD and that I can't testify. I was given an Assistance phone number on 10/25 and spoke to Jane and the situation, and that I was calling to ask for my name and once I gave it to her, the tone was that the US Attorney or FBI Agent will be contacting me.

And if I hadn't been put through enough from this, here are some incidents of this:

The woman that served me the subpoena has been on the roof of the parking garage where I live. I reverse parked in a corner, watching and cleaning that this agent was at the roof where I live. I had a view, and the agent was there at that exact time on the roof—and at midnight? It's obvious that she was a spur of the moment decision for us to have that conversation.

Earlier that day on 10/27, the same agent followed me. The next day, 10/28, an agent went to watch my driveway. I was standing at—and stayed there for a long manner. That agent clearly wanted to scare me at that exact moment?

And it's obvious that the incident on 10/28 was being watched. It's obvious they were sent to understand it is why.

Could you please let me know why agents are stealing my emails and saying I can't testify because of my PTSD?

I understand you're fighting for justice, but wh else to harm their health in the process. My PTS exhausted. I spent hours upon hours helping the sign up to keep getting traumatized over and ove dealing with this again. I implore you to please cannot put myself through this again and have ev me know how I can further expand on this if need have a Zoom meeting with my therapist and I or w stepping foot in San Francisco again I'm so t cities, if that provides an even better example response.

 Melissa,

I appreciate your message. I know being a witness is a terrible experience for anyone.

We'll discuss with our prosecutors. I can assure you I am not a witness to a charged crime.

Because of you, I have PTSD. You preyed on me with Marcus - to become a witness. You said you lie. You knew that I was in a trauma state. Yet what you wanted. I spent hours upon hours helping you come back again to further harm me??? You could be traumatic for me. You said you could arrest me! It is absolutely inhumane how your organization is testifying telling you that I had debilitating PTSD. It is an audacity to contact me again? Shame on you! They are targeting me because I'm a Palestinian American. I need help from me. I will not subject myself to this as bad as Marcus - actually you're worse. You control people, as long as you get what you want. Leave me alone. I am traumatized by dealing with you than Marcus!

And - think about if you were to be treated this as Marcus is! Leave me the f alone. I will not
